

# Cycling Europe

## AUSTRIA 2020

### DANUBE: SCHARDING OR PASSAU TO VIENNA

### SELF GUIDED CYCLE TOUR 9 DAYS/8 NIGHTS

### 350 KM

The classic cycle path along the Danube from Passau to Vienna is one of the most beautiful routes in Europe, with imposing river landscape, picturesque villages and landscapes, and Austrian cuisine. Along its way are the Schlägener Schlinge – a dramatic loop in the river; the cultural metropolis of Linz and Greinburg Castle; the Benedictine Abbey of Melk, founded in 1089; the modern Art Museum of Kunstmeile Krems; the renowned wine valley of Wachau. Visiting one of the Buschenschenken (wine taverns) in the Wachau is a must. The starting-point is either Schärding or Passau so be sure not to miss a concert performed on the biggest church organ in the world in Passau!

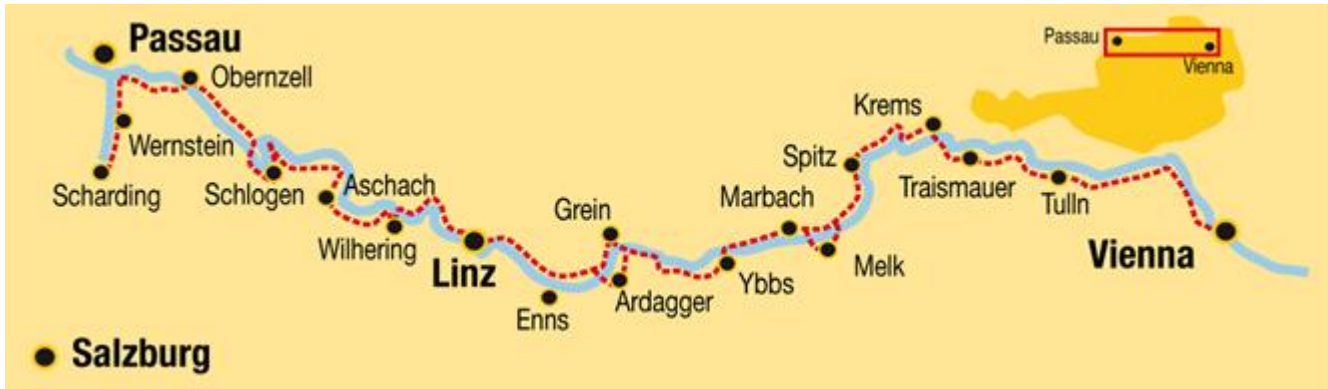

#### **GRADE: Easy cycling 35-60 km per day**

The bike-path along the Danube is mostly flat or slightly downhill. The trail is signposted and maintained very well. Distances are 35-60 Km per day. You can request a slower version with less km per day and extra nights to give you more time for sightseeing. Add in a rest day (we recommend the Wachau wine region).

Customised shorter or longer versions can be requested (with more or less km/day) & electric bikes are possible e.g. a 6 night "sports version" has 60-80 km cycling per day.

## ITINERARY

### Day 1: Arrive in Schärding or Passau

**Start in Schärding:** Our tour partners' office is located in Schärding. If you start here you can meet them in their office, gain their local knowledge and ask any questions about the tour. If you have a rental car, they offer free parking for the duration of the tour. Schärding to Passau is only 17 km. (Train: Passau to Schärding is 12 minutes). Schärding is a pretty baroque town.

**Or start in Passau:** There are direct trains to Passau from Vienna, Munich, Frankfurt & Frankfurt Airport. Allow time for sightseeing in this pretty town at the confluence of three rivers. At noon you can enjoy an organ concert (except on Sundays and public holidays) on the largest church organ in the world in St Stephen's cathedral in Passau.

### Day 2: Schärding/ Passau – Upper Danube Valley (approx. 30-58kms)

If you stay the first night in Passau, bikes can be delivered to your hotel this morning (8.30 am – 9.30 am, no briefing).

**From Schärding:** to Passau there is a wonderful bike path along the Inn. (17 km). From Passau you have the option to go by boat for the first part of the bike tour. Otherwise you cycle along the southern side of the Danube until Engelhartzell, where you can find the only Trappist monastery in Austria. In Engelhartzell you can cross the Danube by ferry or at Jochenstein (1 km before Engelhartzell) cycle over the power station to the northern side of the Danube. At the Jochenstein power station you can visit the waterworld at the "House at the River".

### Day 3: Upper Danube Valley to Linz via the Schlögen Loop (approx. 50-60kms)

The first highlight of today is the "Schlögener Donauschlinge" where the Danube River loops to a turn of 180 degrees. Then cycle through the village of Aschach, past the monastery at Wilhering, and from Ottensheim to Linz, the capital of Upper Austria. Time to stroll through the enchanting old town with its interesting sights in the evening. Stay overnight in Linz or surrounding area.

#### **Day 4: Linz to Ardagger/Grein and surrounds (approx. 50-65kms)**

Today leave Linz and cycle via Mauthausen or Enns, the oldest town in Austria. Continue via Ardagger to the beautiful old mariner town of Grein where you can visit the oldest theatre in Austria, the Greinburg (castle) perched on a hilltop, and the maritime museum.

#### **Day 5: Grein region to Marbach/Maria Taferl/Melk and surrounds (approx. 50-68kms)**

Today cycle through the Strudengau on the southern side of the Danube to the old Roman town of Ybbs, then cross the Danube on the dam of the power station Ybbs-Persenbeug. Reach Marbach by cycling through the gentle landscape of Nibelungengau. Past Marbach and high over the Danube stands the pilgrimage church of Maria Taferl. Your route then follows via Klein Pöchlarn to Melk whose highlight is the wonderful baroque Benedictine Abbey located high on a rocky outcrop above the Danube.

#### **Day 6: Cycle into the Wachau wine region**

Melk marks the start of the most popular part of the Danube bike tour: the picturesque wine area of the Wachau where vineyards, apricot trees, monasteries and castles grace the landscape. The cycle path leads through the traditional viticultural villages of the Wachau.

***Additional nights can be booked here to relax and enjoy the Wachau.***

#### **Day 7: Wachau to Traismauer/Tulln and surrounds (approx. 54-76kms)**

Visit Krems, a town more than 1000 years old, with medieval streets and romantic arcaded courtyards and traditional baroque town houses. From there we cross the Danube once again and cycle past Göttweig Monastery to Traismauer or into the flat Tullner Field with its city of flowers, Tulln.

#### **Day 8: Traismauer/Tulln to Vienna (approx. 36-64kms)**

Shortly before Vienna the valley narrows again. The Danube passes through the Vienna Gate on the edge of the Vienna Woods and takes you through Klosterneuburg to the beautiful, charismatic city of Vienna, famous for its cafe culture and its many sights. Stay last night of tour in Vienna.

## Day 9: Tour ends in Vienna

Arrangements end after breakfast. You can book additional nights in Vienna and we can arrange sightseeing, and/or a Vienna by bike tour.

## 2020 SCHEDULE

Start any day from 01 April – 31 October 2020.
